

PETER ANTOSH, P.E.

I have been a full-time resident of Heritage Oak Park since 2020, living in the Villa 3 neighborhood, and am now a candidate for Supervisor Seat 1 of the Heritage Oak Park Community Development District.

I have over 30 years of experience in the construction industry, licensed as a Professional Engineer in Florida and Illinois. During my career I managed the planning, design, procurement, and construction for projects ranging from \$50k to \$100m+. In addition to that extensive program and construction management experience, I have had corporate administrative and managerial duties for an office of up to 55 employees. I am retired from active practice, but still serve as a director on the Corporate Board for an engineering services company.

These skills, education, and experience provide me a sound foundation toward helping the Heritage Oak Park Community Development District obtain responsive and efficient maintenance and improvements for the District residents.
